**ADAPTIVE ILLUMINATION™**
Adaptive Illumination™ allows the installer to adjust the angle of the light projection from a single unit to fit the specific demands of any installation. Adjustment is quick and convenient and any angle up to 180 degrees (depending on model) is easily selectable. Adaptive Illumination is patent pending technology available exclusively from Raytec.

**COOL RUNNING™ Thermal Management System**
Cutting edge materials science techniques have been employed to improve thermal efficiency throughout the unit. Cool Running™ is specifically designed to allow all Raytec LED products to provide exceptionally long life - up to 10 years.

**SMT (Surface Mount Technology)**
The future of lighting is surface mount LED technology. Compared to standard through hole LED’s, surface mount LED’s are a more robust solution increasing reliability and improving product life. They are also far more efficient at the dissipation of heat allowing the LED’s to run at higher power and achieve significantly improved performance.

**VANDAL RESISTANT**
The polycarbonate lens design protects against severe blows from crowbars, baseball bats and can even withstand successive shots from air pistols and rifles (range dependant).

**ENERGY SAVING**
All Raytec illuminators use high efficiency LED’s and advanced control methods to deliver extremely low electrical consumption. Raytec illuminators are energy saving and deliver huge savings in running costs compared to traditional bulb illuminators.

**HIGH DEFINITION LIGHTING**
High Definition Lighting allows cameras to provide crystal clear, high signal images during the hours of darkness. The breakthrough in HD lighting is made possible with Raytec’s high power LED technology delivering increased power on scene.

**5 YEAR WARRANTY**
All Raytec CCTV illuminators are provided with a 5 year warranty, unmatched anywhere in the CCTV lighting industry. Raytec illuminators provide guaranteed long life!
